WORK EXPERIENCE

Senior Software Engineer (iOS)
Zalando

07/2022 - Present   *Berlin, Germany*
Zalando is one of Europe's largest online shops.
Achievements:

- Owned and drove multi-platform projects, from ideation to delivery
- Played key roles in scrum ceremonies and release processes
- Helped improve unit and UI tests
- Presented in multiple engineering and product meetings

Software Engineer (iOS)
Zalando

01/2021 - 06/2022
Achievements/Tasks

- Understanding the technical requirements of projects and breaking it down into tasks
- Working alongside other engineers on those tasks
- Aligning with stakeholders such as product managers, designers & backend engineers
- Taking care of evolving requirements and addressing them on the go

Software Engineer (iOS)
dubizzle

07/2018 - 06/2020   *Dubai, UAE*
dubizzle is the leading free classifieds website in the UAE to buy, sell and find anything.
Achievements:

- Refactored a monolithic repo into a verticalized architecture
- Crafted a seamless experience for users looking to sell their cars
- Integrated CI/CD and automated the release process

Software Engineer (iOS)
Careem

02/2016 - 06/2018   *Karachi, Pakistan*
Careem is the internet platform for the Middle East region. Started from ride-hailing and expanded to mass transportation, delivery and payments.
Completed projects:

- Revamped login and registration
- Push notifications for promotional messages
- Initial phase of Careem Wallet

GOOGLE SUMMER OF CODE 2014

Worked with Google's Liquid Galaxy Project (05/2014 - 08/2014)

PROFESSIONAL ACTIVITIES

Conducted a workshop for Machine Learning

Participated in monthly Swift meet-ups
